

Miguel Almeida

Frontend developer & design engineer

miguelalmeida1592@gmail.com · Berlin, Germany

LinkedIn / GitHub / Portfolio & case studies

Frontend engineer with a product-design background. Built a business application's original production frontend in Svelte from initial mockups through production. The application is now used by hundreds of companies. Later moved into the React application and continue shipping product features and shared UI architecture there. I work across product design, TypeScript, reusable UI, and AI interfaces.

EXPERIENCE

Software Engineer · Frontend

F24 · Berlin · 2022 - now

- Built the original production frontend in Svelte from scratch, taking initial mockups and product design through to production. The application is now used by hundreds of companies.
- Moved into the React application as the frontend evolved, and continue shipping product features and shared UI architecture in that codebase.
- Grew into frontend delivery leadership, coordinating design, product, backend, and QA from early concepts through release.
- Led the frontend for F24's first shared AI service during an internal hackathon, connecting the service to its first end-to-end interface.

Freelance Frontend Developer

Independent · Berlin · 2021 - 2022

- Delivered responsive websites and product UI for clients, working directly from problem definition through implementation.
- Built the frontend and visual-design fundamentals that now shape my production work.

SELECTED WORK

Second Voice AI

Literary rewriting with explicit request state, clear edits and budget safeguards.

VIGIA

An operational interface connecting incidents, infrastructure and planning context.

Mirror AI

An image-selection flow that keeps the chosen object visible while its details open.

RECOMMENDATION

"Miguel takes full ownership of his tickets from start to finish and completes tasks without supervision. He manages his workload independently and reliably."

Richard Nespithal · Previous team lead
