

Miguel Almeida

Frontend developer & design engineer

miguelalmeida1592@gmail.com · Berlin, Germany

LinkedIn / GitHub / Portfolio & case studies

Frontend engineer with a product-design background. Built a business application's original production frontend in Svelte from initial mockups through production, then continued product delivery in React with the wider team. The application is now used by hundreds of companies. I work across product design, TypeScript, reusable UI, and AI interfaces.

EXPERIENCE

Software Engineer · Frontend

F24 · Berlin · 2022 - now

- Built the original production frontend in Svelte from scratch, taking initial mockups and product design through to production. The application is now used by hundreds of companies.
- Contributed to the progressive React evolution while Svelte product delivery continued, including activity-history filters, detail views and failure recovery.
- Worked with product, design, backend and QA from interaction requirements through implementation, testing and release.
- Led the frontend for F24's first shared AI service during an internal hackathon, connecting the service to its first end-to-end interface.

Freelance Frontend Developer

Independent · Berlin · 2021 - 2022

- Delivered responsive websites and product UI for clients, working directly from problem definition through implementation.
- Built the frontend and visual-design fundamentals that now shape my production work.

SELECTED WORK

Needle

Engineered search across 10,000 artworks with worker-isolated HNSW retrieval, a precomputed search graph, windowed rendering and cache-aware image delivery.

<https://needle.miguelalmeida.xyz>

Second Voice AI

Engineered an AI writing product with literary voice controls, word-level edit comparison and recoverable request state. Preserved drafts and results across failures, with bounded provider requests and generation safeguards.

Spanish · Fluent

RECOMMENDATION

"Miguel takes full ownership of his tickets from start to finish and completes tasks without supervision. He manages his workload independently and reliably."

Richard Nespithal · Previous team lead
